[Ultimate Guide to Project Cost Estimating |Smartsheet](#)
Order of magnitude estimates: An order of magnitude estimate, or ASPE Class 5, is an extremely rough cost estimate created before a project has been defined. It is based only on expert judgment and the costs of similar past projects. An order of magnitude estimate is typically presented as a range of costs spanning -25% to +75% of the actual project cost. It is only used in high-level decision making to screen projects and determine which ones are financially feasible.
