Scott Plous' book about the psychology of judgement and decision making is one of the best books covering this topic I ever read. Very easy to understand, comprehensive, but always on a high level. This book is not only interesting for beginners, but for experts even. No difficult scientists' language. I read it from the first to last page.

The Psychology of Judgment and Decision Making
Summary ...

This is the vexing paradox involved in making decisions: People who are in the process of deciding cannot always trust their own perceptions and thought processes. Psychologist Scott Plous, winner of numerous awards and honors, examines decision making in this rigorously scientific yet mostly accessible book, itself an award winner.
