Klappentext zu Scholars in the Changing American Academy As the nature of education generally, and higher education in particular, changes irrevocably, it is crucial to understand the informed opinions of those closest to the institutions of learning.
Scholars in the Changing American Academy | SpringerLink
This book, based on a survey of academics in 19 nations and conducted by leading global scholars, is a thorough sounding of the attitudes of academics to their working environment. As the post-WWII liberal consensus crumbles, higher education is increasingly viewed as a private and personal investment in individual social mobility rather than as a public good and, ipso facto , a responsibility of public authorities.

Critically, the volume explicitly compares and contrasts the situation of American academics with that of academics in other advanced and developing economies. Such an assessment is critical both for Americans to chart the future of their indigenous tertiary enterprise, but also for shaping the response of the nations around the world who contemplate applying the American model to their own national systems.
