Economic and Monetary Union takes the EU one step

further in its process of economic integration, which started in 1957 when it was founded. Economic integration brings the benefits of greater size, internal efficiency and robustness to the EU economy as a whole and to the economies of the individual Member States.

Economic and Monetary Union of the European Union - Wikipedia

A first attempt to create an economic and monetary union between the members of the European Communities goes back to an initiative by the European Commission in 1969, which set out the need for "greater co-ordination of economic policies and monetary cooperation," which was followed by the decision of the Heads of State or Government at their summit meeting in The Hague in 1969 to draw up a plan by stages with a view to creating an economic and monetary union by the end of the 1970s.
